Two pages

The lens opens a PDF beside its Markdown and reads it in place.
A selection on a page is a selection of text, so an extract or a card
can be carved from it the way it is carved from a paragraph.
The ruler in the margin marks the page you are on.
Figure 1 shows the margin, and [1] names the method.

The second page

Spaced practice beats massed practice, and the gap should grow with each pass.

A card made here lands under a heading that names the page.

Nothing is ever written into this file.

Figure 1. A ruler drawn in the margin of a page.
